

Welcome to the Public Library

A public library is a place in your community where everyone is welcome. At the library you and your family can find information, read or study, ask questions, attend a program, borrow books...and more!

At the library, you and your family can...

Borrow library material, including:

- Resources to help you learn English.
- DVDs, music and audio book CDs.
- Books, magazines... and more!

Use a computer

Most libraries have computers for email and the internet. Some libraries also have computers for writing resumes and letters, and learning a language.

Use online resources

Some libraries have special online resources and databases. You can listen to and read books, magazines, and newspapers through a computer. Special online resources have information for school projects, health information and more!

Find books and magazines in many languages

Some libraries have books, newspapers, and other material in many languages. Ask at your library for more information.

Go to library programs

Libraries have programs, classes and events for children, teens, adults and families. Bring your children to the library for fun programs. Many libraries also have book clubs, computer classes for adults, and other programs too. Ask at your library about what programs they have.

Get answers to your questions

Library staff help you find answers to all kinds of questions. Just ask!

Find a public library near you.

How do I get a library card?

A library card shows that you are a member of the library. Visit your local library and bring identification to get your card. Library cards are usually free. Please ask at your library for membership information.

- Identification can be a driver's license, Manitoba Health card, or anything with your current address.
- Keep your library card safe. Tell the library if you lose your card.

How do I borrow library material?

- Most items in the library can be borrowed. When you borrow material from the library, you will be given a due date. The due date is when an item must be returned to the library.
- Return material in good condition for the next person to use.

What if I am late?

- You may have to pay a fine if you return items late.
- You may be able to keep your material longer. Ask at your library to find out how.
